### Magical Melodies: My Night at the Awesome Concert

Last weekend, I had the coolest time at an amazing concert that had all my favorite things—awesome music, dazzling lights, and a magical atmosphere. Let me tell you all about it using the five W's!

The incredible musician, John Harmon, was the star of the show, and he played the most fantastic tunes. The concert was like a mix of the music I love, both old and new, and it had this super cool light show that made everything look magical. We went to this big amphitheater right in the middle of the city, which was the perfect place for a concert adventure. It all happened on Saturday night, and I couldn't wait to tell my friends about it on Monday. The concert was a big celebration of different types of music and how amazing John Harmon is at making tunes that make you feel all kinds of emotions.

When the musicians started playing, because the music was so beautiful I got this tingly feeling. It was like being in a different world, and I couldn't stop smiling. The music made me think about happy times and exciting adventures.

In the middle of the concert, the stage turned into a rainbow of colors, and it was like a dream come true. The lights were like magic, and they made the music even more fun. It was like a party for my eyes and ears!

At the end, John Harmon did this amazing thing on the piano that made everyone clap and cheer. It was like he was a wizard making magic with his fingers. The whole crowd stood up and clapped really loud—it was the best part of the night!

Thinking back on the night, I felt so lucky to be there. The music made me feel happy, and the lights were like something out of a fairy tale. I think John Harmon is a musical genius, and I'll remember this concert as one of the coolest things I've ever experienced. It's like a special memory I'll keep in my heart forever.

**Comprehension Questions - Practice writing your answer by using the question. The first one has been done for you :**
